

## Underground Railroad Direction Sheet

1. Find your train's engine (the front of the train).  
Put your book title and the author's name on the train's engine.
2. Find your caboose (the back of the train).  
Write the theme of your book on your caboose.
3. Find your three boxcars. On each boxcar, write one of the main events that happened in your book. Then in the white area of each boxcar, draw a picture to go along with the event on that boxcar.
4. Put your engine, boxcars, and caboose in order.  
Make sure both names are on each piece of paper.
5. Go back over each direction. Make sure you have followed all of the directions.
6. Now, put all of your pieces back into your ziplock bag.
